# Stuck in Our Bubble

Manipulated by Fake News

Equality

"The world is kinder when we can understand and accept different perspectives"

Contrast is an application that connects people with different perspectives so that they can get out of their bubbles, be more grounded, and to learn to appreciate the other point of view.

The Matching Algorithm

Quantify taste and perspective in n-space

Political Spectrum

Nuances

-Personality compatibility and difference on perspective correlation in matching algorthm

-Facebook "likes" data aggregation for suggested topics to fill out the sign in

**User Engagement & Monetization
-Premium for more advanced and
prioritized matching
-Donation for the "education" if
strong impact on life**
